## SMALLPOX IN BEE COUNTY, TEX.

Dr. C. T. Moffett, health officer of Bee County, Tex., reports that on January 1, 1910, he was called to Normanna to see a patient who had smallpox. There were 9 other people living in the house, all of whom refused to be vaccinated, saying that they preferred smallpox to vaccination. A man and two women from another house had visited the patient before the case had been diagnosed smallpox. These three were vaccinated, but the vaccine did not take in two of them, the only successful take being in one of the women.

This made 12 persons who had been exposed to the disease, only 1 of whom had been successfully vaccinated. The 11 who had not been successfully vaccinated all contracted smallpox, the woman whose vaccination had been successful being the only one to escape.

The original case and the secondary cases made 12 in all. Of the 12, 5 died.
